

Each week we have chosen a theme for learning. This week's theme will be looking at the David Walliams' book Billionaire Boy. If you are able to get a copy of this book, that is great, but if not then please watch the BBC adaptation which can be found here:

<https://www.bbc.co.uk/programmes/b06t0xym>

Friday Timetable:

Please see below for our suggested timetable of lessons for today, this timetable is designed to mirror what we would have been doing in lessons in school.

9am – 9:30am – Work out and exercise.

<https://www.youtube.com/user/thebodycoach1/>

9:30am – Morning Zoom.

Lesson 1: English 9:45- 10:45

David Walliams writes about teachers' favourite catchphrases (things teachers say a lot). His top ten teacher catchphrases are here:

10. Walk, don't run!
9. Are you chewing?
8. I can still hear talking.
7. It doesn't need discussion.
6. How many times do you need to be told?
5. Spelling!!!
4. I will not tolerate litter!
3. Do you want to pass your GCSEs?
2. Would you do that at home?
1. It's not just the yourself you've let down, but the whole school.

What catchphrases would you say your teachers use? Come up with your own top ten list and send it to me.

Lesson 2: Maths. 10:45am – 11:45 am

In Billionaire boy, chocolate features a lot:

Billionaire Boy - Scene 1

The Grubbs laughed. They snatched what was left of the Cadbury's Dairy Milk bar from Bob's hand and then grabbed his arms. They lifted him up and, as Bob yelled for help, they deposited him into the wheelie bin. Before Joe could say anything else the Grubbs were stomping off down the road laughing, with their mouths full of stolen chocolate.

By sharing chocolate out, we can divide it into fractions. Therefore, over the course of this week, I'd like you to access this series of lessons about fractions from Oak National Academy:

<https://www.thenational.academy/online-classroom/year-3/maths>

I have also included a workbook of activities and questions on this theme of fractions.

Of course, you can also practise dividing a real chocolate bar into fractions as shown in the Hershey's Chocolate bar Fractions book:

<https://www.youtube.com/watch?v=-1XkB6K-l40>

Alternatively you can continue with using khanacademy and complete the lessons set for you on here.

<https://www.khanacademy.org/>

Use the class code:

287PV2QQ

Or I will continue to set work via Mathletics.

<https://login.mathletics.com/>

1:00pm – Afternoon Zoom check in

STEM 1:30-2:30pm.

In Billionaire Boy, Joe's Dad become rich by inventing a new type of toilet paper. Today in Science, I want you to think what you could invent that might make you a billion. Don't worry about whether it would be possible to make your idea. Just get creative. Then I want you to draw your invention and label it, explaining clearly to me what it does and how to use it.

And to prove that it doesn't matter how old you are to invent things – take a look at this video clip:

https://www.youtube.com/watch?v=QR_CfFuDWQ8

Follow your passion: 2:30-3:30pm

Do something of your choosing that follows your own passions. You could redo one of the activities from over the past few weeks or come up with something of your own. Whatever it is, I'd love to hear all about it.

If you would like to share anything with me from the day, please do so via email.

Joe
